The above prices embrace a steerage passage from Liverpool to Boston, by any of our Splendid Line of Packets; provisions at sea according to the undermentioned dietary scale; doctor's attendance and medicine on board when required; port charges at Boston, and all expenses of transportation of passengers and baggage from the ship at Boston, to the destination agreed upon.

In addition to any provisions which the passengers may themselves bring, the following quantities, at least, of water and provisions will be supplied to each steerage passenger of twelve years of age and over, every week during the passage, commencing on the day of sailing, and at least three quarts of water per day:

Two oz. of Tea; 8 oz. of Sugar; 5 lbs. of Oatmeal; 2½ lbs navy bread; 1 lb. wheat flour; 2 lbs rice.

On the arrival of any of our ships in the outer harbor, we immediately dispatch an agent on board, to give pre-paid passengers the necessary instructions regarding their route westward.

TRAIN & CO., of Boston, inform those who take an interest in the welfare of Immigrants, that as owners of the CITY LIVERPOOL and HOSTON LINE of PACKETS, they have determined that their Immigration business shall be conducted in their own name, on their own responsibility, and by themselves or their immediate servants.

In calling public attention to the subjoined list of the Ships which comprise our Boston Line of Packets, we believe that its general reputation *as the first of American Lines* is sufficiently well known and established. The Thousands of Letters which have been sent by American Immigrants to their friends in every part of Europe, have borne ample testimony to the rapid and successful passages made by the Ships, and to the healthy state of health. Comfort and Safety which their Passengers have hitherto enjoyed. Many of them will be recognized as vessels which have gained the very highest character, by a succession of unusual rapid passages.

These magnificent Ships are ALL AMERICAN BUILT and constructed expressly for the Passenger trade, and of the FIRST class, being built on the most improved principles and of the best materials. They possess all the modern improvements which conduce to health and comfort, as a supply of condensed water, and ventilation, the very best Provisions, and a careful medical superintendence.

The Captains have been carefully selected as first-rate sailors and men of humanity, and an experienced Surgeon is attached to each Ship, and no expense is spared in order this the best and most popular conveyance to America.

As Train & Co. have made such arrangements in Liverpool as will PROTECT their friends from the frauds and impositions sometimes practiced there, they believe that those who pre-pay passages cannot but see the advantage of being able to engage with a Respectable House, on favorable terms, for the Splendid Line of Magnificent Packet Ships, and in this way avoid the oversight, annoyance and delay which they so often experience, when they engage with Agents who are but slightly connected with transient Ships.

As a proof that their Immigration business is conducted on principles uniformly Honorable and Humane, and that they have been distinguished for the many kindnesses shown to all their emigrant guests, we are permitted to refer to the very Rev. THEOBALD MATHEW, Cork, Ireland.

### Land Grabs.

It is a fact that a former Legislature of this State, in a fit of thought and with indiscreet haste, memorialized our U. S. Senators to ask Congress to donate large quantities of the Public Lands to Railroad Companies? It is even so.—*Appleton Crescent (Dem.)*

It is even so; and as we have a story to tell about it, we may as well "free our mind" at once.

Some time during the session of 1852, indeed all through the session of our Legislature, strenuous efforts were made by railroad companies, particularly the Rock River Union Valley Co. to get memorials through asking Congress for grants of land. Several bills for such grants were then pending in Congress, and these memorials were desired as instructions to the members from this State. Our impression now is that in the month of March, memorials passed the Senate asking grants for sundry roads by name; for four or five roads at least, among which were the Valley Road, the Milwaukee and Mississippi, and, we think, the Sheboygan and Mississippi. These memorials, thus coming from the Senate, or memorials coming originally from the Committee on the Assembly—it matters not which for the subsequent history—were referred to the Committee on Internal Improvements, of which Mr. DAVID B. CONGER, of Sheboygan Co. was Chairman.

We remember Mr. Conger, well. He was of medium stature, thin, of a nervous temperament, and possessed of the idea that because his colleague was the speaker, it was necessary for *him* to lead the House on the floor. He was always on his feet, on every occasion, having a particular phrase —"*believing as I do*"—with which he commenced, around which he centred, and with which he ended his speeches. He grew to be such a nuisance in the House that the members would stamp him down, after a while, when he arose to speak. He has long since carried his talents to California.

Well; this Mr. Conger was chairman of the Committee. Time passed, and the Committee did not report. The House was known to be opposed to the grants, and desired to vote upon the subject. One of the editors of this paper was in attendance at Madison, corresponding daily with it, and frequently urged Mr. Conger to report. Finally Mr. Conger came one day and solicited us to assist him in drawing up a report against the grants. After some hesitation, we consented to do so, and taking such odd moments as could be spared for two or three days, we drew a report of that tenor, naming the roads asking grants, and making use of such arguments as occurred to us. This was handed to Mr. Conger, and he entirely coincided in the views therein expressed. The Report concluded with a recommendation to pass a resolution remonstrating against the grants.

Nothing more was heard of the Report for some time, although there were rumors flying about of the presentation of conclusive arguments by some of the Committee by some of the railroad people.

On the 5th of April Mr. Conger very gravely arose in his place, and made a report from his Committee. The *words* of the report were identically those which we had sketched at his request, as arguments *against* the grants, but he had taken off the resolution with which it concluded, and, inserting a sentence,—"believing as we do" that these grants will be beneficial to the state,—followed with a recommendation of a general nominal *in favor* of a grant to the state for all of these roads.

The action of the Assembly is thus given in our correspondence of the day:

Several motions followed, to insert various other routes in the memorial, all of which succeeded, so that about all of the projected Rail Roads are represented. Mr. Sholes proposed a resolution, asking for a donation of the lands, to the genuine actual settlers; but, before taking the vote, Mr. Cate moved a proviso to the memorial, by which it is proposed that the lands so granted to the State for the Rail Roads, shall be held exclusively in market until all are sold to actual settlers, at $1.25. This amendment was carried by the decisive vote of 49 to 7. The memorial with the proviso attached, was then passed by the following vote:

*Ayes*—Abbott, Bancroft, Barlow, Beak, Biodgett, Briggs, Cate, Catton, Clemons, Conger, Drummond, Earnest, Fyffe, Hoyt, Lawrence, Lewis, Lloyd, Moore, Mott, Peach, Peak, Phelps, Pierce, Ramsey, Richardson, Ricker, Root, Sterling, Swan, Shaffer—39.

*Noes*—Baldwin, Bodkin, Burgess, Burnham, Cooper, Crawford, Fellows, Giles, Graham, Green, Gordon, Hackett, Hammett, Hasse, Knooll, Kinney, Mokler, Monroe, Sholes, Skinner, Stanks, Strong, Stephen, Tway, Utley, Van Nostrand, Worthington—27.

On the 7th April, this memorial was considered in the Senate, and a substitute reported from committee of the whole, which left out the limitation to purchase and to actual settlers; but afterwards, by a vote of 9 to 8, agreed to such a clause, and the bill went to a select committee. The committee reported the next day, to strike out all of the prayer of the memorial except so as to ask for a grant of land to the state for railroads generally, *with* the restrictions above named, and in this form was read a 3d time on the 9th, and passed on the 10th.

This substitute memorial came to the Assembly the same day. On the 12th it was taken up, and on motion of Mr. Cate, amended so that all property granted under the memorial should at all times be subject to private entry at $1,25 per acre; and then referred to a select committee.

April 13th, the memorial was taken up, and a substitute, offered by Mr. Cate, agreed to by a vote of 37 to 1. This substitute does not appear on the Journal, but we find the following paragraph in our correspondence of that day:

The land grant memorial sent in by the Senate as a substitute for that of the House, was furnished with a proviso similar to the one attached to the former one—limiting price of lands to not over $1,25, and to be kept constantly in market till sold. In this form it went back to the Senate again.

April 15th, the Senate concurred in this substitute 2 to 7, without alteration, and there ends the record. As it is printed in the laws &c., of 1852 it reads as follows:

*The memorial of the Legislature &c., respectfully represents:*

That the construction of railroads in said State is a subject of deep interest to its citizens, and would result in greatly enhancing the value of its public domain in said State, and the commercial prosperity of the Union.

Your memorialists therefore cannot fail to regard with favor any action of your honorable bodies tending to the accomplishment of an object so desirable, and have heard with satisfaction that bills are now pending in the Congress of the U. S providing for grants of lands to this State to aid in the construction of certain railroads therein named. Your memorialists earnestly pray that speedy and favorable action may be had by your honorable bodies thereon, firmly believing that in making liberal donations of the public domain for the promotion of internal improvements in this State, not only the interests of our own State, but the interest of the whole country will be promoted thereby.

J. McM. SHAFTER,
Speaker of Assembly.
E. B. DEAN, Jr.,
Pres. pro. tem. of Senate.

Passed April 16, 1852.

The restriction provided by Mr. Cate's substitute is omitted—the Governor does not sign it, for it never would have received his signature as printed—and the date is wrong.

P. S. The "certain Railroads" mentioned in the memorial are the Milwaukee and Mississippi —the Rock River Valley Union—the Milwaukee and Watertown—and Lake Shore.

That is the history of this Land Grant memorial, as taken from the record.

A GRAVE MASTER SETTLED.—The Lord Hugh Chamberlain of England, it is announced by the *Atlantic*, notified our Minister, Mr. Buchanan, that he can appear at receptions, &c., in just such dress as he pleases. So *that* affair is settled.

## Legislative Matters.

CORRESPONDENCE OF THE SENTINEL.

Madison, March 9.

The most important transaction in the Senate this morning was ordering to a third reading the bill to provide for a settlement with the Rock River Canal Company; so we may expect it will pass that body. The bill appoints three commissioners viz: James H. Knowlton, Orsamers Cole and David Agry, with authority to make a final settlement, and appropriates money indefinitely to pay any award which may be made in favor of the company. What will be the fate of the bill in the Assembly, is entirely uncertain.—That there will be a fight on it there can be no doubt, and it would not be surprising if it should consume as much time as did the liquor bill.—The commission proposed, is a very good one, and if the matter is to be referred to commissioners at all, a better selection could not be made.

In the afternoon the Senate took up the bill to abolish emigrant agencies. All after the enacting clause was struck out, and Mr. Reymert offered as a substitute, the bill he had introduced providing for an election of two emigrant agents, one for New York and one for Quebec, and also a traveling agent. The traveling agency was struck out, and also the clause providing for their election by the legislature, and the Governor authorized to appoint. A motion was made to strike out the Quebec agency, which was lost.

The debate on the merits of the agency occurred on the motion to strike out all after the enacting clause of the repealing bill. Messrs. Dunn and Eldridge spoke in favor of continuing the agency from considerations of good policy on the part of the State, and good faith towards foreigners whom we had encouraged to expect that the agency would be continued. Judge Dunn remarked that if it were an original proposition to establish the policy, he should hesitate about adopting it, but as it had been adopted he was disposed to try its little longer, on a limited scale. He was opposed to establishing more than one such agency, and that he thought should be in the city of New York.

Mr. Blair said he represented as large a foreign constituency as any one on the floor. He had opposed this agency business at the last session, and he had never been censured by one of his constituents for not favoring it, and not one of them had ever asked him to favor it. No petitions had been received from any quarter, asking for it. He had conversed with many intelligent foreigners on the subject, and they all agreed that the agency was entirely useless to foreign emigrants. It might afford them some trifling assistance on their first landing in the country; but they assured him that it could have no influence by way of inducing them to come to Wisconsin. They all had their course marked out before they left home, and would pursue it without regard to emigrant agents or any body else.

Mr. McGarry (himself a foreigner) sustained the facts and views advanced by Mr. Blair. He had no objections to continuing the agency, if it were desired as a matter of interest to the state, but he wished it distinctly understood that foreigners neither asked nor desired any such thing.

The substitute was further amended—by reducing the term of the agency to one year instead of two, and in this form it was adopted and ordered to a third reading. The Senate is very evenly divided on this subject, the vote on striking out all after the enacting clause of the repealing bill, standing 12, 13.

In Assembly, Mr. Hooker introduced a resolution to limit speeches to five minutes. Mr. Hull introduced a resolution making the bill concerning taxation the special order for Monday next, and every day thereafter till disposed of. Both lie over till to-morrow.

The following bills were introduced.

By Mr. Barney,—A bill to repeal the act to incorporate the Wisconsin Central Rail Road Company.

By Mr. McCracken,—A bill to incorporate the New Port and——Rail Road Company.

By Mr. Knowlton,—A Bill concerning taxes Also a bill concerning issues of fact in the Supreme Court; and *passed*.—Also concerning the Congregation-Church, in Shullsburgh; and *passed*.

By Mr. Noggle,—A bill to regulate the terms of Circuit Courts in Rock and Walworth; and *passed*.

By Mr. Purjle,—A bill to legalize the acts of the First Congregational Church in Lisbon, in Waukesha County; and *passed*.

*Bills passed in regular order.*—To authorize the city of Fond du Lac to loan its credit to rail roads.

To authorize the county of Sheboygan to aid in the construction of Rail Roads.

The Assembly then went into committee of the whole and resumed the consideration of the Emigrant Agency bill. Previously, however, Mr. Parkison had made a strong report on the bill to abolish the agency; in which he stated that the expense of the Agency, for the last year, had been near $3000 and if the project of doubling the service were carried out, it would require an outlay of about $16,000. In committee of the whole, Mr. Horn alluded to these statements, and declared them to be false. He said the actual expenses of the system had been, during the last year, but $4300, and that the entire expense for the coming year, if the agencies were increased, as proposed by the bill then under consideration, would not exceed $5000. He knew there was an additional claim before the committee on claims, of $2300, for expenses of the past year, but he understood that it was not the design of the Committee to allow it, and he regretted much to see such false statements put for by a committee, when those statements were to be printed and sent abroad.

Mr. Parkison insisted that his statements were substantially correct, and he was sustained by Mr. Lake, of the committee on claims. He (Mr L.) said the amount already allowed on account of the Agency was $6300, and there was still a claim of $2300 pending before the committee, which if allowed would bring the total amount up to $7,600. Mr. Horn inquired if the committee had not already decided against that claim? Mr. Lake replied that they had not.

After much rambling debate and various propositions to amend, the committee rose and reported the bill back to the Assembly, and a motion was made to indefinitely postpone, which was carried; ayes 39, noes 31, and clinched by refusing reconsideration.

It is now certain that the Senate will pass their bill to continue the agency, and the friends of the measure will have another pull at it in the Assembly. But I doubt much its final success.—Foreigners themselves are divided on the question in both branches of the legislature, and no body can pretend, with any show of truth, that it is beneficial, either to the foreign emigration, or to the State, and we may hope that its days are numbered.

The bone of contention just now, is, the Town and County Government system. The Assembly broached the matter this afternoon in committee, and will be at it again to-morrow. It is not probable that any change will be made.

S.

### Liquor Law—U. S. Senators.

In Senate, March 8th, the Assembly's Liquor Bill came up. A motion to postpone it indefinitely was lost and it was referred to a select Committee, Messrs. Hunter, Reymert, and Adams. The first is opposed to the law altogether, the second instructed for such a law, and the third decidedly in favor.

On the 9th, the committee reported, and Senate concurred in all the Assembly's amendments to the liquor bill, but added a submission clause, by a vote of 13 to 12.

In Assembly, the bill providing for the election of U. S. Senator went through a sort of roundabout process to reach an indefinite postponement, and succeeded in doing it.

## The Letter of the Emperor Napoleon to the Czar.

[This is the letter to which the Czar is said to have replied in very offensive terms.]

PALACE OF THE TUILLERIES, Jan. 29, 1854.

SIRE:—The difference which has arisen between your Majesty and the Ottoman Porte has assumed such a grave aspect, that I think it right myself to explain directly to your Majesty the part which France has taken in this question, and the means which suggest themselves to me in order to avoid the dangers which menace the tranquility of Europe.

The note which your majesty has just sent to my government, and to that of Queen Victoria, endeavors to prove that it was the system of pressure adopted from the commencement by the two maritime Powers which alone involved the question in bitterness. On the contrary, according to my view, the matter would have continued a cabinet question if the occupation of the two Principalities had not suddenly transferred it from the region of discussion to that of fact. Nevertheless, although your Majesty's troops had entered Wallachia, we advised the Porte not to consider that occupation as a warlike act, thus proving our extreme desire for conciliation.

After I had consulted with England, Austria, and Prussia, I proposed to your Majesty a note, designed to give satisfaction to all. Your Majesty accepted it. We had hardly, however, been informed of this good news, when your Minister, by explanatory commentaries, destroyed all its conciliatory effects of it, and thus prevented us from insisting at Constantinople upon its pure and simple adoption. The Porte, for its own part, suggested some modifications in the note, to which the representatives of the four Powers at Vienna were not indisposed to agree. They were not, however, agreed to by your Majesty. It was then that the Porte, wounded in its dignity, its independence threatened, and being compelled to raise an army to oppose that of your Majesty, preferred to declare war rather than remain in a state of uncertainty and humility. The Porte had claimed our support; the cause of the Porte appeared to us to be a just one, and the English and French squadrons were therefore ordered to the Bosphorus.

Our attitude in reference to Turkey was that of a protector, but it was passive. We did not incite her to war. We unceasingly addressed to the ears of the Sultan the advice of peace and moderation, persuaded that this was the best mode of coming to an agreement, and the four Powers consulted together again, and submitted to your Majesty some other propositions. Your Majesty, on your part, exhibited the calmness which arises from the consciousness of strength, contented yourself with repulsing from the left bank of the Danube, as in Asia, the attacks of the Turks; and, with the moderation worthy of the chief of a great empire, your Majesty declared that you would act on the defensive. Up to that period, then, we were, I may say, interested spectators of the dispute, when the affairs of Sinope compelled us to take a more decisive part. France and England had not thought it necessary to send troops to the assistance of Turkey. Their flags, therefore, were not engaged in the conflicts which took place upon land. But at sea it was very different. There were at the entrance to the Bosphorus 3,000 guns, the existence of which proclaimed loud enough to Turkey that the two leading maritime Powers would not allow her to be attacked by sea.

The affair at Sinope was for us as painful as it was unexpected; for it matters little to us whether or not the Turks wished to convey munitions of war to the Russian territory. In fact, Russian ships attacked Turkish vessels in the waters of Turkey while those vessels were riding quietly at anchor in a Turkish port. The Turkish vessels were destroyed, in spite of the assurance that there was no wish to commence an aggressive war, and in spite of the vicinity of our squadrons. It was no longer our policy which received a check, it was our military honor. The sound of the cannon shot at Sinope reverberated painfully in the hearts of all those who in England and in France respect national dignity. There was a general participation in the sentiment that wherever our cannon can reach, our allies ought to be respected. Out of this feeling arose the order given to our squadrons to enter the Black Sea, and to prevent by force, if necessary, the recurrence of a similar event. Thence arose the collective notification sent to the cabinet of Petersburgh, announcing that if we prevented the Turks from making an aggressive war upon the coast of Russia, we would also protect the Turks upon their own territory.

As to the Russian fleet, in prohibiting its navigation of the Black Sea, we placed it upon a different condition, because it was important during the war to preserve a guaranteed equivalent in favor to the occupation of the Turkish territory, and thus facilitate the conclusion of peace by having the power of making a desirable exchange.

Such, Sire, is the real result and a statement of the facts. It is clearly that, having arrived at this point, they must either bring about a definite understanding or a decided rupture.

Your Majesty has given so many proofs of your solicitude for the tranquility of Europe, and by your beneficent influence has so powerfully arrested the spirit of disorder, that I cannot doubt as to the course you will take in the alternative which presents itself to your choice.—Should your Majesty be as desirous as myself of a pacific conclusion, what would be more simple than to declare that an armistice shall now be signed, that things shall resume their diplomatic course, that all hostilities shall cease, and that the belligerent forces shall return from the place to which motives of war have led them?

Thus the Russian troops would abandon the Principalities, and our squadrons the Black sea, Your Majesty, preferring to treat directly with Turkey, might appoint an ambassador, who could negotiate with a plenipotentiary of the Sultan a convention which might be submitted to a conference of the Four Powers. Let your Majesty adopt this plan, upon which the Queen of England and myself are perfectly agreed, and tranquility will be restablished and the world satisfied: There is nothing which is unworthy of your Majesty,—nothing which can wound your honor: but if, from a motive difficult to understand, your Majesty should refuse this proposal, then France as well as England, will be compelled to leave to the fate of arms and the chances of war that which might now be decided by reason and justice.

Let not your Majesty think that the least animosity can enter my heart. I feel no other sentiments than those expressed in your Majesty yourself in your letter of the 7th of January, 1853, in which you write—"Our relations ought to be sincerely amicable, based as they are upon the same intentions—the maintenance of order, the love of peace, respect of treaties, and reciprocal good feeling." The programme is worthy of the sovereign who traced it, and I do not hesitate to declare that I remain faithful to it.

I beg your Majesty to believe in the sincerity of my sentiments, and it is with these sentiments that I am, Sire, your Majesty's good friend.

NAPOLEON.

### Funeral of Dr. Gardiner.

WASHINGTON, March 6.

The funeral of Dr. Gardiner took place yesterday afternoon, and was attended by a small number of his personal friends. His brother, Charles, was present, relieving an impression which prevailed that he had run off in consequence of his not appearing on the summons of Coroner and the equivocal conduct of his brother-in-law. The letter written by the deceased, and given to his brother just before his death, is a matter of much speculation, and it is expected to be forthcoming at the inquest next Friday, at which time Charles Gardiner will be before the Jury.

JUDICIAL ELECTION.—Concerning the election of judges. This bill provides for electing county, circuit and supreme judges at the town elections in April. The portion allowing voters to vote anywhere in the State for judges of the supreme court, was stricken out.

(So here, at the beginning of March, we have a hint that the law concerning the election of Judges, is altered.—The election comes in April, and we shall probably get sight at the laws sometime in October, if the State Printer is industrious. Fine legislation this to be sure.)—*Stevens Point Pinery.*

### Nebraska! Attention! All!

LINDEN, Mo., Feb. 7, 1854.

*Ed. Chicago Journal*—Dear Sir: Permit me, through the columns of your paper, to inform the public that the laws of the United States do not permit settlements to be made upon the Indian lands. I confidently expect that the treaties recently made with the Otto and Omaha Indians will be ratified. A pledge was required of me by the Chiefs of those tribes that their lands should not be occupied by the whites until the treaties were disposed of at Washington. I ardently hope that the persons desirous of emigrating to their land will exercise forbearance, and not subject themselves to the penalties of the United States Laws.

Respectfully, yours,
JAMES M. GATEWOOD,
U. S. Indian Agent.

BAYARD TAYLOR.—The Detroit *Advertiser* thus speaks of Mr. Taylor's lecture in that city;

The Young Men's Hall was crowded to its utmost capacity last evening, to listen to this distinguished poet traveler. So great indeed was the crowd, that we saw upon entering, it would be impossible for all to obtain seats, or even room to stand; and we resolved, as the chairs were already filled, to stay only long enough to see the man and hear his voice, and then give place to others to do the same. But seeing only increased the curiosity to hear, and the first tones of that clear ringing voice, coming so distinctly yet without effort, over the sea of heads and waving plumes between us and the speaker, so riveted attention that the discomforts of our situation were forgotten, our resolution vanished, and we lingered, partly sitting and partly standing, till the last word was spoken.

## Marine Convention at Chicago.

We are again indebted to our friend WELLS, of the Chicago *Press*, for the proceedings of this Convention, sent to us in advance, under the supposition that the mail goes by Janesville still.—They are quite long, and we could'nt conveniently make room for them. We accordingly copy the *Democrat's* report, which is not so full, but contains the material points; and will give the discussion on Monday;

Thursday Morning, 10½ A. M.

Convention met pursuant to adjournment.

Mr. Rounds, from the committee appointed to memorialize Congress in regard to the St. Clair Flats, stated that the committee were procuring statistics, but had not yet concluded their labors.

Col. Shepard, from the committee in regard to seamen's wages, asked further time, agreeing to report at 6½ P. M. this evening; agreed to.

Mr. Hill, from the committee on Short Weights and Measures, reported as follows;

Your committee who were appointed to consider the subject of short weight between ports of shipments and delivery of cargoes of grain, have given the matter consideration, and report as follows:

Your committee have not been able to perfect, in the short time they have had for consultation, any definite or single plan that they feel confident will remove this source of annoyance and difficult but would suggest—

1st. That the plan of city weighers, having charge of all scales for weighing in and out of cargoes, and all losses to be divided between the warehouse and vessel at point of shipment.

2nd. That shippers insert a clause in their bills of lading, by which the master binds his vessel to stand the weights at the port of delivery, and that it be universally adopted.

3d. That when a vessel shall be short at the port of destination, not exceeding 20 bushels, the vessel shall be liable; when the amount exceeds 20 bushels, the amount of excess shall be divided between the owner, the shipping elevator, and the receiving elevator, except when the amount is evidently so great as to be a mistake, which, in cases, can be corrected.

The Report was accepted.

A motion was made to lay the report on the table, but withdrawn.

The first suggestion then coming up, a motion was made to lay it on the table—lost.

A lengthy discussion arose, which was participated in by Messrs. Richmond, White, Shepard, Lyon, Peck, Ball, Lind, Walter and Williams.

The question was then taken on the adoption of the first proposition—lost.

The second proposition was then debated, the question taken on its adoption, and lost.

Mr. Richmond moved to amend the last proposition by striking out 20 bushels, and insert 1-10 of the cargo—lost.

Mr. Lyon advocated the proposition.

Messrs. Richmond, White, C. H. Walker and others, continued the discussion.

Mr. White moved to re-commit the Report to the Committee, to report at 6½ P. M. this evening.

Messrs. Walter, Shepard, White and Bell were added to this committee.

R. S. Blackwell, Esq., upon the invitation of the Convention on proceeded to explain the Laws now existing, in regard to the navigation of foreign vessels, the coasting trade, and of inland waters, and stated than such laws applied to foreign vessels almost exclusively, and were not extended by an act of Congress, to the lakes, so far as the principles and police regulations of the same was concerned.

Mr. T. Richmond stated that the navigation laws, as applied to the Lakes, were found to be useless in regard to the employment of seamen, and were impracticable, and could not be carried out if extended over the Lakes. What we wanted, was laws to govern the inland navigation of the country.

After some further discussion the Convention adjourned to 6½ P. M.

THE GRAND HAVEN ROUTE.—A Milwaukee correspondent of the Chicago *Journal* says:

The Grand Haven Railroad, from Sarnia on the St. Clair river to Lake Michigan opposite Milwaukee may be a feasible route during some months in the year, but after the close of navigation, travelers will go through Chicago by the Lake Shore road of necessity.

The famous steamer of which so much has been said, the steamer which is expected to defy winter, and plough eighteen inches of ice with no effort at all may do very well for part of the year but after November the owners will save money by letting her rest.

"Eighteen inches of ice"! That will do. No wonder the winter, in another part of his letter, talks of the impossibility of having ice in the winter. His ideas of ice are remarkable every way. It is an absolute fact, known to every one who knows anything of Lake Michigan, that steamers can navigate it with as perfect safety in the winter as they can Long Island Sound.—They do the latter, laying up in case of a very severe storm, just as they would have to do in the summer. The only difficulty in the way is the harbors on either side, and with such a very large travel and trade as must necessarily pass over this route in two years from this time the comparative expense of keeping the harbors open would be but trifling.

Why bless you man, steamers navigate the Arctic Seas! Did you ever hear of that?

DOINGS IN CONGRESS THIS WEEK.—The New York Herald's Washington correspondence says, under date of Monday, 6th;

Territorial bills—not the Nebraska—will be discussed in the House to-morrow, Wednesday and Thursday.

The Nebraska bill will be reported from the Senate to the House to morrow, and will then be referred to the Territorial Committee. It is not intended to discuss it this week.

RESCUE OF SEAMEN.—The *Atlantic* brings news that the bark *Bonnie Dee*, from Savannah for Liverpool was picked up off the coast of Ireland water logged. The crew had been 12 days without food or water; 12 of them, including the Captain, were dead from starvation, and the remainder, 7, were landed at Swansea and are doing well.

STATE LUNATIC ASYLUM.—We are indebted to Senator McLane for a copy of his excellent report upon this subject. We shall try and make room for a portion of it. The Committee recommend the erection of such an asylum, estimating the cost at $22,320.

GRAIN ON LAKE MICHIGAN.—The Chicago *Journal* says there are over one million bushels of grain chiefly wheat and corn, stored at towns along Lake Michigan, destined for eastern shipment.—*Exchange.*

If the *Journal* said so, it made a very low estimate. We have 700,000 bushels of grain in store in Milwaukee alone.

☞ The Monroe *Sentinel*, democratic, does not think that Gen. Crawford, in his remarkable speech against the Maine Law &c., suggested the proper epitaph for himself, but that it should be *"Here lies John Crawford, Bogus Dem."*

ADJOURNMENT.—Will our Legislature *ever* adjourn? What has become of that wonderful patriotism which, at the beginning of the session, talked of getting through in six weeks? Will somebody tell us?

NEBRASKA REMONSTRANCE.—We learn from Washington that the remonstrance signed by about 1000 of our citizens against the Nebraska iniquity was presented by Mr. Wells in the H. of R. on Monday last.

CAN IT BE BEATEN?—A single sprout of a cultivated plum was grafted by me last season into a limb of the wild plum, which grew three sprouts of the following measurement: 5ft 4½in., 5ft 2in., and 3ft 8in., aggregate 14 feet 2½ inches.

Fond du Lac March 5, 1854.

Yours Truly,
J. M. GILLETT.

*Milwaukee Daily Sentinel.*—No "Sentinel" received by us this week! Now Gen'l, we can spare the sunshine, submit to hear the pattering of the March rains, and be compelled to walk the streets when they are swimming with water—but we cannot content ourselves without the paper which has always furnished us with the latest news by telegraph from all quarters.—*Appleton Crescent.*

Such an appeal as that sent us forthwith to our mail books, when we found that through some inconceivable blunder, the *Crescent's* name had been erased. Doubtless somebody else is getting the *Sentinel* who is not entitled to it. We make the correction, with all due speed, and with thanks to our cotemporary for its friendly notice.

☞ The Menasha *Advocate*, having received a present of a "wagon load of earthen ware," made by C. & C. Batchelder, of that village, gives the establishment a first rate notice.

SIMPLICITY IN HIGH LIFE.—A distinguished lady who moves and rides and waltzes in the very highest circles, sent lately to her French hairdresser (Monsieur Isadore) for 'a pot of the best Russian ultimatum.'

### CIRCUIT COURT—March 10.

JUDGE HUBBELL PRESIDING.

The State of Wisconsin vs. Chas. Mallen.—Trial for larceny in a shop. Jury brought in verdict of guilty. A. R. R. Butler for State, J. E. Arnold for Def.

### POLICE COURT.—March 10.

Two or three cases adjourned for the want of testimony.

A man named John Totey was brought down from jail by Dep. Sheriff Mitchell (who will be Marshal in a few days) where he has been confined for some time awaiting an examination, for sureties to keep the peace. The man's wife, who was complainant, was not willing to prosecute; the Court told the defendant to go home and behave himself. He would not allow the complaint to be dismissed, but left the case open.

### Uncle Tom's Cabin.

This performance attracts large crowds at Young's Hall, and gives to all capable of appreciating, great satisfaction. We attended the first exhibition and were much delighted and instructed with the performance. The characters of Uncle Tom is admirably played, and exhibits the affection of the kindly-hearted negro domestic, with a perfection we had not expected to see at this distance from sea-board. The other characters are well sustained, and we are confident that the children of the schools in our city, might learn profitable lessons from the childlike, pretty and devoted affection of little EVA. The performance is without the slightest immoral feature, and is well worth the price of admission.

PETITION FOR PARDON.—We noticed yesterday a petition to Governor Barstow asking for the pardon of John Meyers who was sentenced to the state prison for ten years for the manslaughter of his sister in 1847, in Washington County. Myers is represented to have behaved extremely well during his imprisonment; the petition is signed by a large number of respectable names. This makes two petitions for pardon within about six weeks; the other was for the liberation of Fitzgerald for attempt to commit a rape upon a German girl.

☞ D. Newhall's new brick warehouse alluded to in yesterday's *Sentinel*, will be of the following dimensions; 120 by 50—four stories high, to have 3 hoppers and steam engine, with hopper and scales on top for loading vessels, the same as Sweet's Warehouse. The contract has been let to Messr. Martin and Rugee for $17,400 for the completion of the whole, in running order, and to be warranted for one year.

NEBRASKA EXPEDITION.—Capt. GIBBS, who has been organizing in Chicago an expedition for Nebraska, will be as the American to day, to confer with any who may wish to join the company. Let the *freemen* go there at once, if the land is open for settlement.

SPRING STREET.—We are glad to see that the Common Council have ordered Spring Street to be planked from the bridge to 4th St. It is a much needed improvement.

☞ The Steamer *Traveller*, Captain Crooker, arrived from Chicago yesterday afternoon with about 60 passengers and left for Sheboygan immediately.

MENOMONEE BRIDGE.—The South float of this bridge took a sudden leaving yesterday, and went down the river. That important crossing should be attended to without delay.

FIRE DEPARTMENT.—The members of the Fire Department meet at Metropliran Hall on Monday evening, 20th to elect their officers for the ensuing year, viz: Chief Engineer, three Assistant Engineers, and 10 Fire Wardens.

### INDEPENDENT AMERICAN MILITARY COMPANY.

We, the undersigned, desirous of forming an Independent Military Company, to be composed of Americans, invite such as are willing to join such an organization, to meet with us at the house of Engine Company No. 1, on Monday evening at 7½ o'clock.

FOR AUSTRALIA—THE LAND OF GOLD.—The superb American clipper ship *Nightingale*, it at her berth, for Australia. The celebrated clipper ship *Nightingale*, built to exhibit at the World's Fair, has been chartered by R. W. Cameron, of 116 Wall st., and is up for Melbourne, and is without doubt the very best and fastest ship afloat, as well as the most elegant and commodious in her accommodations. See the advertisement of the line in another column.

The *Wisconsin* forgot, this time, to say where the news came from.

CHICAGO ELECTION.—Affairs were not altogether peaceful at the late election in Chicago. The *Journal* says;

A worthy police man, officer Busbway, was savagely assaulted in the exercise of his duty at the 7th ward polls.—One of our respected citizens for challenging a vote was dragged violently away from the polls in the last ward, and a man named Williams was stabbed for the same *offence*, in the 4th ward. Among a certain class of our citizens there seemed to be a desire to visit the most summary vengeance upon all who ventured to dispute the right, in this free country, of voting in any of or all of the wards.

## Great Fire in New York—Immence Loss of Property.

NEW YORK, March 6.

A destructive fire occurred yesterday morning in Spruce street. Five large buildings, occupied by a large number of tenants were burned down with all the contents. Among the most extensive losses are Seth Benedict's extensive printing office; the Independent Newspaper office, (H. W. Beecher's); Thompson's Bank Note Reporter Office; the establishment of Bendict, Rerade & Roberts, extensive warehouse; H. C. Bing, leather and finding store, and the paper warehouse of J. D. Forney, with others. The loss is very heavy.

*The Anti-Nebraska Meeting*, which assembled in this village, on Saturday last, notwithstanding the extreme bad state of the roads, was the most enthusiastic and numerously attended of any political meeting held in this county for years.

The resolutions will be found in this paper; they speak for themselves; and we believe are the sentiments of a majority of the people of this county, irrespective of party.

It was repeatedly stated by distinguished democrats, that if the democratic party pressed this bill, and thus assumed the character and responsibilities, that henceforth the ties of party must be severed, and that they wished to be known as REPEALERS.—*Monroe Sentinel (dem.)*

*Special dispatch to the N. Y. Times.*

Washington, March 6.

The Senate Select Committee on the Pacific Railroad reports to-morrow. The bill leaves the selection of a route to the successful bidder for the Road.

It is an understanding had with Mr. Richardson that the Nebraska fight will not be made this week. The deficiency bill will probably be disposed of first.

### Trade across the Mississippi.

West and North-West of Prairie du Chien, extending Westward to the Missouri, and Northward to the Minnesota or St. Peter's river, lies a region unsurpassed in natural productiveness and as yet scarcely touched by the hand of culture. Immediately along the Mississippi, several small settlements and a few thriving villages have sprung up within a few years, and a continual stream of emigration is pouring into the country, yet so small is the settled portion of the tract compared with what remains unsettled that the great wilderness may be said to be uninvaded. One hundred and fifty miles from this place, we are told, the buffalo still roams his native prairies. How long will this region remain the abode of savages and wild beasts.

The inhabitants will provide themselves with roads to the Mississippi; but who will provide them with an outlet to the Lakes and the Atlantic coast? Will Chicago or will Milwaukee secure the future trade of this great region? Chicago is not a slow Town as every one knows. Milwaukee's mettle remains to be tried. If the latter opens any sort of communication with the Up

HIGHLY IMPORTANT NEWS FROM EUROPE!

## Position of the various Powers.

*Reported for the Sentinel.*

New York, March 9.

Steamer Asia, from Liverpool 25th ult., arrived at Halifax last night.

Breadstuffs had partially receded from the advance of the Atlantic, closing nevertheless at an advance on the week of 6d on flour, 2d on wheat, 1s on corn.

Richardson Bros., quote Western canal flour at 33s@34s 6d; white wheat at 12s 6d@13s; red 11s@12s 3d. Yellow corn 47s@48s. White 48s 6d. Beef firm and coming up. Pork dull. Lard easier. Bacon in good demand at full prices.—Ashes unchanged. Consols unchanged.

No military or naval action of special interest had occurred since the *Atlantic's* news, but political events of the highest importance are occurring.

A significant announcement appears in the *Moniteur*, saying if the flags of France and Austria are united in the East, France will not permit any attempt to separate them beyond the Alps. This is regarded as an encouragement for Austria to declare herself on the side of the allies, and a threat to raise Hungary and Italy if she sides with Russia.

England has formally notified the Russian Government of her intention to send a fleet to the Baltic, and that Admiral Chas. Napier is appointed to take command. The Russian fleet in the Baltic has been ordered to fit for sea. The allied fleets remain in the Bosphorus, with cruisers in the Black Sea.

Austria continues to send troops to the southeastern frontier.

The Greek Insurrection is growing more formidable. Great excitement prevails in Greece.

New York, March 9.

The *Asia* left Halifax at 10 o'clock this morning and will be due at Boston to-morrow. On 29th Feb., she saw the Arabia going into Liverpool.

The *Moniteur* says France cannot suffer the integrity of the Ottoman Empire to be broken by aggressive acts from Greece, and France disountenances revolution anywhere. The announcement is viewed as official and important.

Meanwhile the attitude of Austria is growing more and more favorable to the allies. She had announced her intention of formally going with the allies, if Russia's aggressive acts against Turkey continue. This announcement is probably premature, but it gave firmness to funds. At the same time Austria continues to send troops to the frontier. To allay apprehensions a manifesto is about to appear stating that Austria continues her efforts for peace, and that the reports are merely to prevent disturbance spreading to Servia, Montenegro and Bosnia.

The attitude of Russia remains unchanged and unexplained. From the Danube, accounts report both parties as preparing for a great battle. The Russians had failed, in an attempt to turn Omar's position. From Asia there is nothing new.

Joseph Sturgess and the members of the peace society had a friendly interview with the Czar.

A dispatch from Persia says the Shah officially announced to the Foreign ambassadors that he will remain neutral in this war.

Lord Palmerston, in answer to a question, replied that Smith O'Brien having acted like a gentleman in refusing to escape at the expense of breaking his parole, is to be pardoned.

Mr. Buchanan was present at the Queen's levee in London.

American securities are steady; the following are the quotations—U. S. 5's of '65, 98 ¼@99½; 6's of 1862, 104a105; 6's Bonds of 1868, 109a110.

### MICHIGAN LIQUOR LAW DECLARED CONSTITUTIONAL.

Detroit, 10th.

In Supreme Court, 10th. People vs. Hawley, a brewer. Question reserved by Circuit Court, Wayne Co.

Opinion of court is that defendant is not exempt from penalties of prohibitory law, because he manufactures and sells strong beer and ale, nor is he exempt from prohibition because of his contract, and that an act prohibiting the manufacture of intoxicating beverages and the traffic therein is constitutional.

### Congressional.

Washington, March 9th.

In the House this morning Mr. Dean of N. Y. made an ineffectual attempt to introduce a resolution instructing the committee on Foreign affairs to inquire into the outrages recently committed at Havanna on the persons and property of American citizens.

Remonstrances against the Nebraska bill were presented. House then went into committee on Minesota Land bill.

In Senate several remonstrances against Nebraska bill were presented. Mr. Walker reported back the homestead bill with unanimous recommendation of the committee, and it was made the special order for Monday.

## INSURANCE, &c.

### WISCONSIN General Insurance Agency

—FOR—

### Life, Fire & Marine Insurance.

HARTFORD LIFE INSURANCE COMPANY.

CAPITAL - - - - $400,000.

THE TIME HAS GONE BY WHEN THE ADVANtages of Life Insurance need an argument. It is already a settled conviction among the best informed that a man without much property, who has others dependant upon him, or a man engaged in any hazardous business, or a man whose property is encumbered so as to require forced sale in case of his death, has no more imperative duty resting upon him than that of placing him to have his LIFE INSURED. Think of those innocent objects of our solicitudes, struggling alone with the cold charity of a merciless world! when a few dollars saved by curtailing needless expenses would give them a competence.

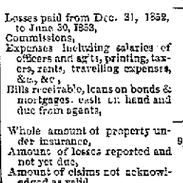
### PIG IRON.

THE NORTH-WESTERN IRON CO., offer for sale at the Office of their Agents, LUDINGTON & Co., in Milwaukee,

1,000 Tons Number One Iron.

The Iron is of good quality and superior to Scotch Pig for most purposes. mr10d3mowómo

### QUEEN'S PATENT



PORTABLE FORGE AND BELLOWS.

THIS FORGE can be set where most convenient for light and room, and the smoke conducted to the Chimney by a Pipe.

There are six sizes of Blacksmiths, Coppersmiths, &c. Forges, and five sizes of Jewelers, Dentists and Chemists.

It is compact—the Tuyer Iron is of a superior construction—heats the iron in the quickest manner—the wind escapes from the hot-air chamber through several holes in the Tuyer cap, which being under the fire, prevents the Tuyer from getting filled up with coal and ashes, as it will where there is but one opening. For out-door work and for safety in-doors, this Forge has great advantages over others, having two Slides by which the Forge can be closely shut in, and for safety and many purposes in-doors, particulary for Jewelers, Dentists and for chemical operations, all the fumes from charcoal and acids being conducted through the smoke-pipe, or when open they are entirely out of the way; it is also so constructed that fire or water cannot injure the Bellows, which is in the cylinder under the fire bed.

It is the best Forge for Contractors on Railroads, Public Works, for making repairs on the same, and for emigration to new countries, ever offered to the public, and are successfully used by most of the Steamers and also by the U. S. Army and Navy.

THE

**BUFFALO EAGLE IRON WORKS CO.**

*Propose to pay Particular attention to*

**Architectural Iron Work.**

WE are prepared to Manufacture IRON FRONTS for Stores and Public Buildings, with the

**Patent Fire Proof Rolling Shutters.**

These Shutters are the same that are now so generally used in New York, and come to us highly recommended. They shall be arranged before erection of the building, may be used without in the least affecting the style of Architecture. They make the only perfect Fire Proof Shutter in Use. Do not rust in the grooves, and are rolled up.

When desired we will furnish the Plan for Store Fronts, (with or without the Patent Shutter,) with estimate for the Cost of the work finished ready for erection. To any Western Architect whose engagement will be desirable, for they thus are enabled to know without experiment what the Front is to be, and what it is to cost.

When the Patent Shutters are used we will furnish a man to superintend the erection of the Iron Front and the setting of the Shutter.

*Private Dispatches to the Sentinel.*

## Great Excitement at Racine!

### Brutal Arrest of a Colored Man!

Racine, 11th.

At the ringing of the Court House bell this morning, the largest meeting of citizens ever held here was convened, without distinction of party.

The following resolutions were adopted:

*Whereas*, A colored man by the name of Joshua Glover, was kidnapped four miles from our city, last night about 8 o'clock, who was at the time of his arrest at work for one of our citizens, and was also a faithful laborer and honest man.

*Resolved*, that we look upon the arrest of said Glover as an outrage upon the peaceful rights of this community, it having been made without the exhibition of any papers by first clandestinely knocking him down with a heavy club and then gagging and binding him by brute force, and carrying him off.

*Resolved*, That we as citizens of Racine, demand for said Glover, a fair and impartial jury trial, in this the city where he has been arrested, and that we will attend in person and bid him by all honorable means, to secure his unconditional release, adopting as our motto the Golden Rule.

MARSHALL, Mich. March 11.

### Oil Mill and Woolen Factory Burned.

The Oil Mill & Woolen manufactory in this village, both owned by Mr. Cross of Massachusetts, were burned last evening, together with their machinery: loss from $7000 to $8000. It was the work of an incendiary, as there had been no fire in the building in which the fire originated for three months past.

### Judge Wing and the Maine Law.

Judge Wing has changed his views from opposition to approval of the Constitutionality of the Maine Liquor Law of this State, which gives a majority of two in favor. The Judges stood four for to four against.

*Dispatch to the Sentinel.*

### Navigation Soon to Open.

Buffalo, March 11.

The warm weather of the past few days has dissolved the ice in the Creek, and it has all passed out and vessels are moving about in the harbor. We learn from fishermen that the ice in the Lake is very rotten, and will hardly bear them. There is every prospect of an early opening of navigation, probably during the 1st week in April.

A great land slide occurred yesterday on the Great Western R. R. near Dundas; the locomotive of the Express train ran into the bank under full headway and was completely buried. It will take at least a week to clear the track so that trains can pass.

New York, March 11th.

A dispatch from Washington states that a duel was talked of last night between Messrs. Hunt of L. A. and Lane of Indiana, growing out of an exciting discussion in the House yesterday.

A collision occurred yesterday on the Erie R. R., near the Sufferns depot. Patrick Sweeney was killed, D. Murphy badly hurt, and others more or less injured.

### Later from California.

New York, March 11.

The steamer North Star reached her dock at 12½ o'clock. She brings California dates to the 15th Feb., and 330 passengers—no specie on freight.

The John L. Stevens arrived at San Francisco on the 15th Feb. The Steamrs California and United States left San Francisco on the 16th for Panama. The Golden Gate recently ashore at San Diego, arrived at San Francisco, Feb. 3d.

The U. S. sloops of war Portsmouth and Columbus left San Francisco on the 14th for lower California, the latter having been chartered by government.

Adventurers were still leaving San Francisco for Sonora. Lower California advises at San Francisco state that the Mexican authorities at Mazatlan were putting the coast in a state of defence against Col. Walker and his party. The inhabitants of Lower California were said to be enthusiastically eager to beat back the invaders.

Late rains in California had improved the mining business. Expresses were loaded down with dust, and miners were doing a good business.

Later advices from Walker's expedition had been received. The steamer Goliath had arrived at San Diego, on her way to join Walker. There had been trouble at the filibuster camp—a part of the soldiers mutinied and after threats on the part of the leaders, were allowed to leave.

Baltimore, March 11th.

The Maryland Legislature adjourned last evening after rejecting all the liquor law bills.

### Great Freshet in the Ohio.

Cincinnati, March 11th.

A tremendous Rain Storm has prevailed for 63 hours. The Ohio and its tributaries are rising with unprecedented rapidity. All the bottom lands are threatened to be overflowed. Merchants in the lower part of the City are moving their goods. The river is rising 18 inches an hour.

NEW YORK MARKET.

New York, 11th—2 P. M.

Flour—market firmer for western and state—private advices by Asia more favorable than the public accounts, and large holders firmer—better grades in fair request at full prices. Canadian quiet at 7,87a8. Sales 3000 bbls western canal at 7,91a8 for common to straight State; 7,96a8,12 for mixed to fancy Mich. and common to good Ohio.

Wheat—little variation in wheat—supply fair—sales 6000 bus fair white Southern at 1,81½; 5000 bus inferior at 1,73, and 2200 bus good red Jersey at 1,80. Barley 1,00a1,08. Rye lower and quiet; sales 1000 bus Jersey at 1,10. Oats in good demand at 51a55c for state and western. Corn hardly so firm, particularly mixed—sales 3000 bus at 82½a83 for mixed Southern and Western.

Whiskey—market unchanged—sales 300 bbls. at 25½ for Jersey, 28¼a28½ for prison, and 28½ for Ohio.

Provisions—Pork quite dull at 15,50 for mess, 13,25 for prime. Beef in fair request at 15,50 for country mess.

Lard steady at 9¾a10¼. Butter and Cheese unchanged.

FREE ON THE PLANK ROADS.—The vote on Friday last, on the subject of loaning the city credit in aid of plank roads, although light, was almost unanimous in favor—*only one lone vote against*. The City Council, in conformity with the vote, have authorized the subscription of $10,000 in aid of the Fond du Lac, Lamartine &c., road, and $5,000 in aid of the Oshkosh road. In addition to the these amounts, the first road has received private subscription to near $10 000 more, making in all, about $20,000.—*Fond du Lac Herald.*

R. R. U. V. R. R.—A report has been in circulation in our city a few days past, to effect that these had been a new purchase of Railroad iron sufficient to complete the Valley Road from Janesville to this place. We should like to believe that this is true, but our better judgment tells us that there is more of a *sell* about the story, than there is a buy of the iron.—*Fond du Lac Herald.*

HARTFORD LIFE INSURANCE COMPANY.

CAPITAL - - - $400,000.

THE TIME HAS GONE BY WHEN THE ADVANTages of Life Insurance need an argument. It is already a settled conviction among the best informed that a man without much property, who has others dependant upon him, or a man engaged in any hazardous business, or a man whose property is encumbered so as to require forced sale in case of his death, has no more imperative duty resting upon him than that requiring him to have his LIFE INSURED. Think of those innocent objects of our solicitude, struggling alone with the cold charity of a merciless world! when a few dollars saved by curtailing needless expenses would give them a competence.

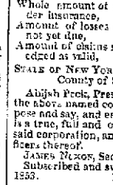
QUEEN'S PATENT



PORTABLE FORGE AND BELLOWS.

THIS FORGE can be set where most convenient in a light and room, and the smoke conducted to the Chimney by a Pipe.

There are six sizes of Blacksmiths, Coppersmiths, &c. Forges, and five sizes of Jewelers, Dentists and Chemists.

It is compact. The Tuyer Iron is of superior construction—heats the iron in the quickest manner—the wind escapes from the hot-air chamber through several holes in the Tuyer cap, which being under the fire, prevents the Tuyer Iron getting filled up with coal and ashes, as it will where there is but one opening. For run-door work and for safety in doors, this Forge has great advantages over others, having two Slides by which the forge can be closely shut up, and for safety and many purposes in-doors, (particularly for Jewelers, Dentists and for chemical operations) all the fumes from charcoal and acids being conducted through the Tuyer-pipe, or also open they are entirely out of the way: It is also so constructed that fire or water cannot injure the Bellows, which is in the cylinder under the fire bed.

It is the best Forge for Contractors on Railroads, Public Works, (for making repairs on the same,) and for emigration to new countries, ever offered to the public, and are successfully used by most of the Steamers and also by the U S. Army and Navy.
